**This Week at CLS**

It's not every day Benjamin Franklin comes to visit your school! K-8 students, teachers and guests enjoyed Monday's *History Comes to Life* presentation by an actor portraying the grown up and the child Franklin! The Minneapolis Art Institute's *Art Adventure* program will focus on *How People Lived!* And quarter two report cards went home! Meanwhile down the hall... **Pre-K** listened to opera music, read and sang (in their best opera voices) *A Soup Opera!* **K** kids learned that Jesus lived a perfect life for us as he grew up and visited the temple, deconstructed numbers up to 10 and read all things Michael Hall! The **first graders** really liked meeting Benjamin Franklin and got to measure with rulers!

**Second graders** compared, added and subtracted, studied plants and read stories about weather! **Grades 3/4** learned about European countries! **Fifth graders** looked at the three uses of the w, learned about prefixes and found multiples of numbers! **Sixth graders** studied the first commandment, added and subtracted fractions and continued working on their vision boards! **Math 7** studied and used negative exponents! **7/8 graders** finished up a unit on energy and energy sources and moved on to basic chemistry and read about Bradbury's vision for 1999 in an excerpt from *Fahrenheit 451!* Thank you for your support of Christian education at CLS!
